2013 Workshop for Information Sharing and Safeguarding Standards (WIS3)

Posted by Leah T Bannon on Monday, February 18, 2013

From the IJIS website: WIS3, which was originally scheduled for January 23, 2013, has been rescheduled and will be held from 8:30 AM ? 3:45 PM on Thursday, March 21, 2013 at the Hyatt Regency Hotel in Reston, Virginia. The Workshop will be co-located with the Object Model Group (OMG) Technical Training event which is being held from March 18-22, 2013. This interactive workshop is intended to bring together government and industry leaders to chart the future for architecture and standards frameworks for the national information sharing environment. Expert panel presentations will be followed by discussion sessions on each of these topics:

- Privacy/Technology Framework
- Information Sharing and Interoperability Standards
- Shared Frameworks and Services
- Audit and Security

Representatives from the Federal, state and local government, as well as the technology industry, have been invited to participate. Also invited are members of standards organizations such as Object Management Group (OMG), Organization for the Advancement of Structured Information Standards (OASIS), Open Geospatial Standards Group (OGC), Global Justice Advisory Committee, and others from the private sector.

Join us to learn more about Information Sharing and Standards and help set the direction for the national information sharing environment.
